

Digital pathology: a new tool in Pathology Department

Aubriot-Lorton MH, Molly D, Aubry M, Chapusot C, Ilgart F, Pap V,
Funes de la Vega M, Andrianiaina H, Laurent N, Martin L

- Why Digital pathology was integrated in the lab?
- What was necessary before the integration?
 - Identification of blocks and slides with 2D bar codes
 - Integration of a LIMS (Diamic, Infologic) for technical follow up
 - Installation of a server for archiving (80 To)
- Which solution was adopted?
 - NanoZoomer (Hammamatsu)
 - Calopix (Tribvn) for integration of slides into our LIMS
 - Teleslide (Tribvn) for sharing of slides with distant pathologists
