

CALL FOR SUBMISSIONS

"ADVANCES IN DIGITAL PATHOLOGY"

a special issue of **DIAGNOSTIC PATHOLOGY**,

editors: **Klaus Kayser**, Catherine Bor, Myriam Oger and Philippe Camparo
in the framework of the

12TH EUROPEAN CONGRESS ON DIGITAL PATHOLOGY 2014,
18-21 JUNE 2014, PARIS

<http://www.digitalpathology2014.org>

Following the long and successful tradition of the **biennial Congress on Telepathology and Virtual Microscopy** lastly organised in **Venice** in 2012¹, which have been consistently involving visionary college of pathologists, dynamic scientific community, as well as dedicated industrial consortium specialised in digital pathology we are supporting the emergence of a high-quality special issue, dedicated to a selection of articles concerning advances and applications in digital pathology to contribute to the modern pathology development, such as:

- Virtual Microscopy, Whole Slide Imaging,
- Telepathology, E-learning,
- Image Analysis, etc.

This special issue will be entitled: **Advances in Digital Pathology** to appear in the autumn 2014 in: **Diagnostic Pathology**, online journal².

Details about the preliminarily extended abstract submission (less than 1500 words) process could be found at:

http://www.digitalpathology2014.org/_uk/submission.asp

You and your team are warmly invited to submit a contribution to this promising, selective and impactful special issue, which we would all like to become a real milestone, guideline of future of pathology.

The deadline for the submissions will be:

- on the **20th of January 2014** for an **extended abstract** of less than 1500 words to be submitted at: <https://theoffice.fervetopus.net/en/theoffice/digital-pathology-2014-abstract-upload/>
- and the **28th of March 2014** for the **full paper at Diagnostic Pathology** (information will follow after the acceptance of the extended abstract).
